Currently, there are 79,121 (+323) positive cases and 6,243 (+28) deaths in Pennsylvania. As of June 15, 2020, there are positive cases at 642 (+4) LTC/PCH facilities, 41 jails/prisons, and 243 food industry facilities. 74% of all Pennsylvania positive cases are now considered recovered. A recovered case is one that has not been reported as a death and is more than 30 days past the date of the positive test or onset of symptoms.

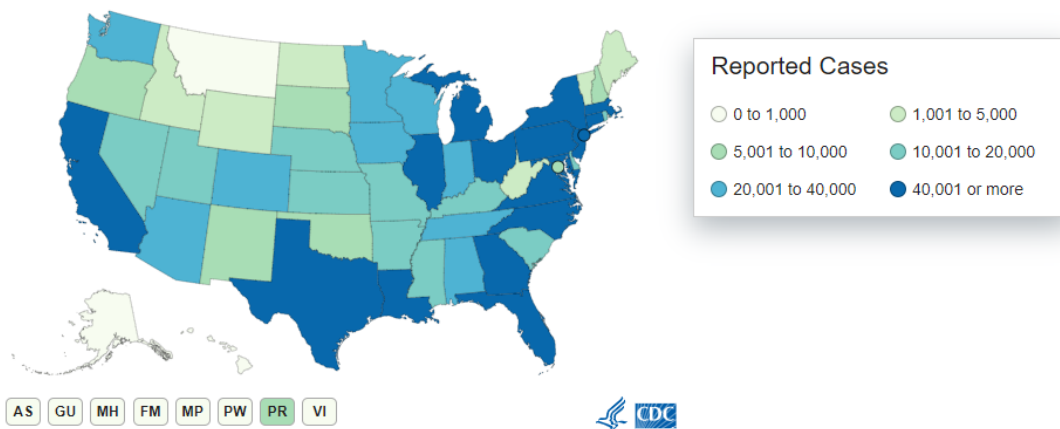

As of 1600 on June 15, 2020, there were 2,105,482 (+22,400) cases in the U.S, and 7,966,770 (+127,937) worldwide. There have been 115,998 (+419) deaths in the U.S. and 434,669 (+3,444) throughout the world.

Epidemiological investigations and contact tracing continue throughout the state to determine potential exposure of additional persons. The PA state lab has increased capacity to account for the testing surge. Commercial and medical system labs are on-line and testing for COVID-19.
