ARE INVITED TO AN INFORMATIONAL MEETING FOR THE
DAUPHIN COUNTY AGRICULTURAL LAND PRESERVATION
PROGRAM.**

The Agricultural Land Preservation Program preserves farmland through the purchase of Agricultural Conservation Easements. These easements restrict the use of the land to agricultural use in perpetuity.

Dauphin County Conservation District staff will discuss the preservation program and Agricultural Security Areas.

What is an Agricultural Security Area?

Is my farm eligible?

How does this affect my land?

Will this cost me anything?

What is the benefit to the landowner?

How do I apply?

Please contact Matthew Williard at the Conservation District with any questions: 717-921-8100.
