# Native Plants

## *for Seasonal Interest*

Designing native plant gardens with a succession of interest from spring through winter is challenging. Join us as Eileen Boyle offers some ideas to incorporate native plants that provide visual interest and attract wildlife throughout each season of the year. Learn how to include hardy groundcovers, perennials, shrubs, and trees into your home landscape... just in time for the spring planting season!

**Thursday, April 12<sup>th</sup>**

**7:00 pm at Grace United Methodist Church  
(433 East Main Street, Hummelstown)**

*Eileen Boyle is the Director of Education and Research at Mt. Cuba Center, a botanical garden focusing on native plants and ecosystems, located in Hockessin, DE. Her love of native plants, extensive horticultural experience, and the joy of teaching are intertwined in her current role. Eileen has also worked as a horticulture professor and Director of Horticulture at the Philadelphia Zoo as well as at the New York Botanical Garden.*
