

230 Corridor Sewer Development Update

There has been a lot happening in Londonderry Township relative to the DEP mandated installation of sewer in the Route 230 Corridor.

This sewer installation is part of the Township's official sewage management or 537 Plan and is a state requirement from the Department of Environmental Protection. The issue for the Township has been "how can we possibly afford this?". The project is expected to cost a total of \$26,000,000.00 and is simply not something the township could afford to implement on its own, we simply do not have the tax base to generate enough funding to do so. The lack of tax base also means that the Township could not borrow its way to a funding solution.

The answer was to find partners in the construction of the sewer lines and create a tax base for future expenses. The township was able to partner with two developers to fund \$15,000,000.00 of the cost to design, permit and construct the line. The developer's contributions will fund the cost of the line (and pump stations) from the Derry Township Municipal Authority's southwest plant (located on Swatara Creek Road) along the Route 230 corridor to its furthest point located at Hoffer Road. There will be capacity in the main line for the Township to add connections and in this way help us along the path to compliance with DEP while saving our residents \$15,000,000.00!

We will still have to find a way to fund the additional requirements in the 537 plan, and that is where the tax base will help. The township will receive real estate taxes from the developments once they are completed and we can use this revenue to help offset some of the cost of meeting our mandated 537 plan compliance. The two developers will build three logistics centers that are expected to create almost 1,500 jobs in Londonderry Township! The employees that work at these centers will patronize our local businesses further spurring the local economy. We believe that the preliminary sewer line design will be completed this spring and that final design and permitting will be completed in the fall of this year. The township anticipates bidding, award and construction of the lines and pump stations to begin in the beginning of 2021, with construction completed by the first quarter of 2022. Construction of the logistics centers may occur simultaneously with the construction of the sewer lines, however, the timing of that construction will be at the developer's discretion. While this project meets the immediate needs of the 537 plan the intent is to limit this development to the Route 230 Corridor and to preserve the rural nature of the township.

This is a major undertaking and the first time we have done it, so please be patient with us as we work our way through the process. Please feel free to reach out to the Township at 717-944-1803 if you have any questions on these projects.

Summer Maintenance

Storm pipes that are underneath private driveways are owned by the property owner, not the Township. Over time, sediment, leaves and debris build up in the pipe and at the pipe ends, preventing storm water from passing through. In most cases, the water travels around the pipes, usually onto the roadway. In the winter months, this water can freeze on the roadway, causing a major traffic hazard. It is the responsibility of the property owner, not the Township, to make sure these pipes are functioning properly by routinely checking and clearing the pipes and pipe ends.

As winter ends and spring arrives, there will be potholes appearing on Township roads. The Township Road Crew performs weekly "Road Checks" of all Township roads. If you see a pothole, you can report it to the Township office at 717-944-1803, or leave a message on the Township Public Works answering machine at 717-944-9440. Please be as specific as possible to the location. It is also helpful to give your name and phone number in the event we cannot locate the pothole. Thank you.

We have many projects planned for this spring and summer. Please check the Township website and Facebook for upcoming projects. Scheduled road projects that involve closing a road will be posted at least one week in advance, with a detour posted. In some cases, an emergency road closure is required. In the event of an emergency, we will post the road closure as soon as possible.

During the summer when grass is being mowed, please do not blow grass onto the roadway. This is a traffic hazard, and will also clog storm drains and gutters. If you do blow grass onto the roadway, please clean it off as soon as possible.

Winter is over, but this summer will be a good time to examine the condition of your mailbox and post. Most mailboxes are located within the Township right of way. When clearing a heavy, wet snow from roads, unfortunately, mailboxes do get damaged. One idea is to mount your mailbox on a swivel, so if the plow truck hits the mailbox, it will swing around, which may prevent it from being damaged.

Sincerely,

Andy Brandt

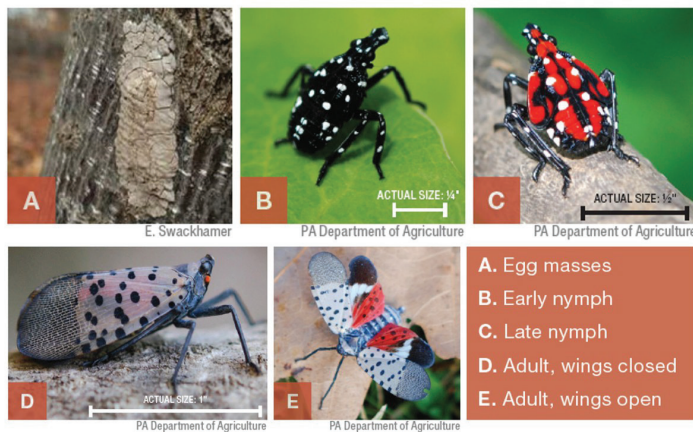

Public Works Director

Riparian Buffers

Do you have an eroded bank on your property? Is your property line receding because it is falling into the creek? Creeks, streams and rivers will stabilize when they are planted with grasses and trees, these areas are called Riparian Buffers. A riparian area will not only prevent erosion, but will filter pollution from human land use before it reaches the water.

Benefits of Buffers

- Prevent stream bank erosion by using roots for stabilization
- Reduced impacts from flooding
- Increase aesthetic value
- Trap, filter and slow runoff
- Provide shade for temperature control
- Provide food, cover and habitat for wildlife
- Absorb and store excess nutrients which are associated with decreased water quality

If you are interested in planting trees along your streamside property, at little cost to yourself, please contact Monique Dykman at MDykman@Londonderry.org to learn about programs planting trees to protect water quality.

Would you like to help the MS4 Program plant trees in the Township? Email MDykman@Londonderry.org to learn of volunteer events!

TURN THIS

A heavily eroded stream channel

INTO THIS

Newly planted riparian buffer with protective tree tubes

A mature forest adjacent to an established stream channel

Tree Canopies

Although tree canopies are scenic and enjoyable to drive through, they can also cause a hazard to vehicles and the road surface. While low hanging branches keep the road shaded, they also keep the sun from drying the road after it rains, and hinders the melting process of ice and snow in the winter. Emergency vehicles must travel slower to avoid low hanging branches from striking their vehicles. Delivery trucks, garbage trucks, and school buses also have a difficult time passing safely under low hanging limbs. During rain and snow events, these limbs hang even lower than usual making safe passage more difficult.

It is not our intent to remove all trees from hanging over the roadway. But we do have to make it safe for all vehicles and pedestrians to travel the roadways. We will be removing limbs back 3 to 4 feet from the edge of the pavement, and 16 to 20 feet above the road surface. We will also be removing the dead limbs that we can reach before they cause damage to vehicles or pedestrians.

Grass on the Roads

When mowing your grass this summer, make sure to keep all grass clippings and garden trimmings off of the road.

When left on our roads, they can create dangerous driving conditions, especially for motorcyclists, as well as add to stormwater runoff. This debris, often times containing fertilizer, is not meant to be in our waterways and disrupts the natural ecosystem. Please make sure to either blow or sweep your clippings from the road, do not dump them down the storm sewer. It's also a good idea to leave the grass clippings on your lawn. They serve as a great natural fertilizer!

Stormwater & Environmental Department

LONDONDERRY TOWNSHIP ILLICIT DISCHARGE AWARENESS

An illicit discharge is any discharge not composed entirely of stormwater, entering a Municipal Separate Storm Sewer System aka an "MS4" aka a storm drain.

An illicit discharge also includes any piping or drainage leading directly into a storm drain that was not initially placed during construction. MS4's are only intended to carry stormwater directly to streams and rivers. Any illicit discharges flowing into an MS4 can pollute the streams in the area, harming the wildlife and way of life of the people who use these streams.

How You Can Help?

The easiest way you can help is by disposing of liquid wastes properly and not allowing them to flow into storm drains. You can also check your storm drains near your home to make sure no pipes are flowing from your home which you were not previously aware of.

If you notice a possible illicit discharge you can contact the MS4 Environmental Specialist at 717-461-0027.

However, if you ever see a rare, large quantity spill which would be unable to be handled locally, please call DEP's South-Central 24/7 Emergency number at 866-825-0208.

Examples of Illicit Discharges

- Sanitary Wastewater
- Septic Tank Effluent
- Chlorinated Pool Discharge
- Improper Oil/Radiator Flushing Disposal
- Laundry Wastewaters
- Spills from roadway accidents
- Improper disposal of household toxins

Exemptions

- Discharges from fire-fighting activities
- Fire hydrant flushing
- Potable water, including water line flushing
- Untaminated condensate from air conditioners, coolers, and other compressors and from the outside storage of refrigerated gases or liquids
- Irrigation drainage
- Landscape watering provided all pesticides, herbicides, and fertilizer have been applied in accordance with the approved labeling
- Pavement wash waters where no detergents are used and no spills or leaks of toxic or hazardous materials have occurred
- Routine external building washdown that does not use detergents
- Untaminated ground water or spring water

Invasive Plants & Animals

Invasive plants and animals are nonnative to the area they are residing, and outcompete the native plants and animals. Invasive plants typically have natural advantages such as distributing large numbers of seeds, aggressive root systems, and/or produce leaves earlier in the season than their native counterparts, allowing them to sprawl out, blocking light from reaching the native plants. Similarly, nonnative plants do not provide necessary nutrients, and typically have an unpleasant taste to our native animals therefore, nonnative plants do not get grazed down at the same rate a native plant would. This allows the nonnative invasive species to grow uninhibited, and puts greater pressure on the remaining native plants.

TREE OF HEAVEN (AILANTHUS)

- Can grow from 80-100 feet tall and 6 feet in diameter.
- Leaves are attached along a central stem, positioned directly opposite of one another. Each stem can hold between 10-40 leaflets spanning 1-4 feet long.
- Pointy, riveted leaves, blossoms with yellowish flowers above the leaves.
- Leaves smell like cat urine or burnt peanut butter when crushed.
- Almost identical to Sumac.

Do not pull, as the root system will reinforce itself, and will sprout twice as strong the next season. To learn more about the treatment of the Tree of Heaven, contact MDykman@londonderrypa.org, or refer to documents published by Penn State Extension, or another credible source.

Special Threat

- Grows everywhere and anywhere. Will even grow in between cracks in the sidewalk. Tree roots are extensive. May damage building foundations, underground pipes, and even kill other plant species nearby.
- Known as the host tree for the spotted lantern fly.

POISON HEMLOCK

- Located along roadsides, field margins, ditches and waste areas.
- Hollow, purple stem reaching up to 8 feet tall. Leaves are "dissected", or intricately cut – similar to a fern.
- Smells like parsnip when crushed.
- As the name suggests, ingesting poison hemlock is toxic for wildlife and humans – even years after removal.

Luckily, removal of the entire root system is unnecessary to eliminate poison hemlock.

Poison hemlock can be controlled by hand pulling, or using Roundup. Roundup is often the preferred method to hand pulling to prevent an adverse reaction of painful blisters resulting from poison hemlock coming in contact with skin, then being exposed to sunlight.

To learn more, or look into chemical removal of the poison hemlock visit DCNR's Invasive Plant Fact Sheet: Poison Hemlock.

Historical Fact: Used to kill Socrates

Stormwater & Environmental Department

GARLIC MUSTARD

- Located in moist, shady areas, especially next to riverfronts.
- Triangular heart shaped leaves that smell garlicky when crushed.
- Blooms clusters of white flowers.
- Leaves will remain green through winter

To remove, one must be persistent, as the seeds can remain in the soil for 5 years, or more. Hand pull plants as roots are not extensive and come up easily. All materials should be removed from the site to prevent regrowth.

To learn more, or look into chemical removal of garlic mustard visit DCNR's Invasive Plant Fact Sheet: Garlic Mustard.

JAPANESE HONEY SUCKLE

- This shade intolerant plant is located in a variety of habitats including: forests, wetlands, farm fence rows and roadsides.
- This woody vine can grow up to 80 feet in length, with oval shaped leaves.
- Nonnative/invasive honey suckle will grow in moist soil, whereas the native shrub will prefer dry and rocky soils.
- The plants are best known for their fragrant white and yellow flowers, which bloom between April and July.

To remove, apply herbicide to a cut stump. Repeated control, monitoring and sprout removal may be necessary. Hand pulling and mowing are not suggested as the root system can produce denser sprouts.

To learn more, and for herbicide guidelines, visit DCNR's Invasive Plant Fact Sheet: Japanese Honeysuckle.

REFLECTIVE SIGNS

What is the worth of your family, your home, or your life? How much would you be willing to spend to make it easier for emergency personnel to locate your home easily? Would \$20 be too much?

You may have seen those green numbered signs as you are driving around the Township. Ever wonder what they are for? They are emergency reflective signs. They make it easier for emergency personnel to find your house at night.

These signs are being sold by the Londonderry Fire Company. We want to respond quickly to your call for help. Please fill out the coupon and mail it back to us today. Isn't your family, your home and your life worth it?

Spring Cleaning

Longer days, rain showers, baseball, and cleaning are just a few things that come to mind when you think about spring. And since we don't have much to say about game or weather predictions, we thought we would share some stormwater-friendly spring cleaning tips.

When you clean the outside of your house and do yardwork, remember to always use a broom to remove litter from driveways or sidewalks - instead of a hose. This will prevent debris from entering nearby creeks or rivers. Instead, sweep litter back into your yard or into your compost pile – especially grass clippings and leaves!

THINKING ABOUT CLEANING UP YOUR LAWN CARE ROUTINE?

Lawn care chemicals often end up washing right into local waters – wasting your money and polluting our streams and rivers! Try these methods to save green – and be green!

Try to “grasscycle”! It adds nutrients into your lawn, reducing your need for fertilizer by up to 25%.

What is grasscycling? Recycling grass. Mow your grass high, about 3 inches, and then leave the clippings on your lawn. Cut frequently to promote the smaller clippings settling into the soil, and prevent longer grass unable to settle down, which can end up looking like hay.

If fertilization is necessary, September is the best month to apply it. Don't apply fertilizers or pesticides when there is rain in the forecast, and never apply fertilizers or pesticides within 75 feet of waterways. Using less fertilizer will save you money, as well!

“WEED BE GONE” Recipe

- 1 gallon white vinegar
- 2 cups Epsom salt
- ¼ cup Blue Dawn dish soap

Spray weeds in morning after dew dries. Weeds will be gone by evening.

Hand pick weeds when possible, and only spot treat rather than dousing the lawn. Try using our “Weed Be Gone” recipe above.

Are you planning on disposing of old paint or household cleaners? Please don't pour them out! Instead, call Dauphin County's curbside household hazardous waste program at 1-800-449-7587. This is a program available to each household for FREE, one time per year. When poured on the ground or into an inlet, these toxins are carried by stormwater directly into a nearby creek or stream, untreated, which eventually end up in the Susquehanna River. And who wants to swim or fish with paint?

Monique Dykman
MS4 Environmental Specialist 717-461-0027

Londonderry Estates Sewer Project

Londonderry Township has been working with residents over the past year to construct sewer in the Londonderry Estates development. This is a requirement of the Township's Official Sewage Management plan that is mandated by the Department of Environmental Protection.

The Township was recently awarded a combination of grants and loans by PA Vest which is the state agency that provides some funding for these types of projects. The Township received \$108,300.00 in grants and \$283,700.00 in loans from PA Vest. These initial funds are to be used to complete the design and permitting for this project. We expect that process to be completed in December of 2020. When we receive approval from DEP on the design and permitting we will use this information to determine the cost of construction of the lines. The township will use that cost estimate to submit another PA Vest application for the construction of the lines. That application is anticipated to be submitted in winter/spring of 2021. Based upon the results of that PA Vest application (funding received) we anticipate construction on the lines to begin in the spring/summer of 2021, and connections to the line to be completed in the summer/ fall of 2022.

Additionally the township has applied for an H2O grant from the Commonwealth Financing Authority for \$985,000.00 to offset some of the cost of the project which is expected to be approximately \$1,900,000.00. We expect to hear the results of that grant application in May of this year. The Township is exploring every opportunity to obtain funding for these projects and reduce the cost to our residents. This is the first sewer project that the Township has undertaken so please be patient with us as we work our way through the learning curve. Please feel free to reach out to the Township at 717-944-1803 with any questions you may have on this project.

Veteran's Golf Outing

FREE Golf! FREE Food!
FREE Live Music & Fireworks!

Saturday, June 27, 2020

Sunset Golf Course

2601 Sunset Drive, Middletown, PA 17057

717-944-5415

www.sunsetgc.com and www.sunsetbandg.com

THANK YOU for your service!

If you are currently serving in the United States Military or are a Veteran, mark your calendar for the 2020 Veteran's Golf Outing! You and a guest will enjoy 9-holes of golf and dinner after your game as our way of saying Thank You! Afterwards, have your family and friends join you on the deck at Sunset Bar & Grill for live music followed by a 30-minute fireworks display! Enjoy a family friendly Independence Day celebration that draws more than 5,000 spectators annually! **IMPORTANT:** *Scramble format starts at 5:00pm. The outing is limited to the first 72 people who register, so call early!*

Which branch will win this year?

12th Annual Stars & Stripes Salute

Celebrating our Nation and Helping our Veterans:

The annual Stars and Stripes Salute is a community event created to honor our Veterans and current service men and women and their families and to celebrate the birth of our nation.

This event is paid for through fund raising activities and no tax dollars are utilized. All funds raised in excess of the cost of the event, are donated to the Lebanon VA Hospital so they can provide additional services to our veterans. Over the past ten years, this event has raised \$60,807.52 for veteran's services.

This event features a live band with patriotic music in the park and a modern band on the deck at the golf course.

There is a veterans golf outing where veterans play a free round of golf followed by supper at the clubhouse. We also bring the folks from the Middletown Home out to enjoy the music in the park and provide them with supper.

This is a great community event and the evening ends with a fireworks display for all to enjoy. It is a great example of community service and we are proud to host it each year. The date of the event is June 27th this year and we look forward to seeing you there!

LONDONDERRY TOWNSHIP'S STARS & STRIPES SALUTE AT SUNSET PARK

Conewago Creek Restoration Project Update

The Conewago Creek Restoration Project is on track to meet the mandated, and unfunded, Pollution Reduction Plan (PRP) - as part of the Municipal Separate Storm Sewer System (MS4) permit. Right now, the health of the creek is in danger. Erosion is causing farmers along the creek to lose valuable soil, and unmanaged stormwater runoff is carrying pollutants into the creek – threatening the water quality, that both humans and animals depend on.

Unlike municipalities, water has no borders. The Conewago Creek watershed encompasses many municipalities before discharging into the Susquehanna River, which provides drinking water to millions of Pennsylvanians. The river then feeds into the Chesapeake Bay, our nation's largest estuary. Restoring the Creek will have immense benefits including improved downstream water supplies, improved recreation in Londonderry Township, reduced flood potential, and reduced sediment and nutrient pollution, while consequently improving water quality.

In order to avoid spending tax payer money, the Township has pursued and secured funding from numerous sources. National Fish & Wildlife Foundation (NFWF) provided nearly \$50,000 to study the creek, identify the causes of pollution and determine priority areas to restore. This winter, the NFWF grant was completed and interested residents can find the case study at www.Londonderry.org > Stormwater Management & MS4 > CBPRP. This initial study identified three individual project sections for stream restoration, which will be completed as funding is available.

In total to date, the Township has received more than \$1.3 million in funding to cover the cost of a project that will include stream restoration measures such as streambank stabilization, removal of legacy sediment and floodplain reconnection. Additionally, this funding covers the construction of three (3) bioswales that will be built on farmland alongside the creek. Pennsylvania Department of Environmental Protection (PADEP) is providing nearly \$200,000 from the Sunoco Pipeline settlement to fund the design and permitting of measures identified in the initial study. PADEP is also providing two (2) grants from its Growing Greener program to fund the construction of these measures once design and permitting are complete. More recently, the Township applied to the Commonwealth Financing Authority for additional funding to cover the cost

of riparian buffer plantings. Forested riparian buffers are vital to stream restoration, improving water quality and aquatic habitat, by stabilizing the streambanks and providing shade to reduce water temperatures.

They will be pursuing engineering solutions from Herbert, Rowland & Grubic, Inc. (Township Engineer) and Land Studies, Inc. that will improve water quality in the most

cost-effective ways. Mt. Joy Township, our neighbor on the south side of the creek, will be contributing funding in support of these efforts because they too will benefit from improved water quality in Conewago Creek and will also be using the Conewago Creek Restoration to fulfill their PRP requirements. The NFWF case study highlights the economies of scale and cost savings to each municipality. This is a significant effort that has involved many partners to date. This is why a wide variety of public and private organizations have joined together in the effort to improve Conewago Creek, including:

- Private landowners and farmers
- The Dauphin County Conservation District
- The Manada Conservancy
- Penn State University Agriculture & Environment Center
- The Conewago Creek Initiative
- The Tri-County Conewago Creek Association

After the initial survey and assessment funded by the NFWF grant, the next step of the Conewago Creek Restoration project will be to obtain Chapter 102 and 105 permits from DEP, to ensure the process will protect and maintain the natural resources of Pennsylvania. Once the permits are approved, the project will begin construction, which is currently on track to begin in the Spring of 2021.

The Conewago Creek Restoration project is the first of its kind in Pennsylvania, and has the potential to make Londonderry a well-recognized environmental leader regionally. In addition to greatly enhanced local water quality and reduced flood risk, this project has the potential to positively impact the community by adding a community park, loop into the Conewago rail trail system and serve as a restored area to reintroduce native animals and fish populations.

**OLSDS (On Lot Sewage Disposal System)
UPDATE SPRING 2020 SEWER
DISTRICT NO. 3
JUNE 1, 2019 — JUNE 30, 2020**

The Township's OLSDS (On Lot Sewage Disposal System) pumping and reporting Management Program was initiated in 2014 and established districts that requires all properties within each of those districts to have their septic system pumped and inspected once every four years. Every septic system in the Township (including the island properties) and every treatment tank or cesspool associated with every OLSDS shall be pumped and inspected once every four (4) years by a **certified pumper/hauler within a specific time frame.**

In 2018 the Township began the SECOND CYCLE of the program.

The Township established five (5) pumping districts identified as Sewer Districts 1, 2 and 3 and On-Lot Management Districts B and A. As a reminder the following pumping/inspection schedule is shown below.

DISTRICT	PUMPING & INSPECTION DEADLINE DATES
Sewer District #1 and #2	June 1, 2018 – June 30, 2019
Sewer District #3	June 1, 2019 – June 30, 2020
On-Lot Management District B	June 1, 2020 – June 30, 2021
On-Lot Management District A	June 1, 2021 – June 30, 2022

For the current pumping cycle, ***Sewer District No. 3, which began on June 1, 2019 and runs through June 30, 2020***, it must be pointed out that any pumper/hauler report received by the Township dated ***AFTER*** June 30, 2020 will be in VIOLATION of the OLSDS Ordinance and citations will be issued for non-compliance. ***Please remember that this is a requirement mandated by the DEP and required by state law.***

For a listing of each address and district together with the pumping schedule and district maps, please visit the Township website www.londonderrypa.org or contact the Township Office at 717-944-1803.

Recycling

RECYCLE, RECYCLE, RECYCLE

It's Spring! Keep it Clean AND Keep it Green!

Londonderry Township Recycling Center

FROM THE PUBLIC WORKS DEPARTMENT

The yard waste/recycling yard has moved. It is now located behind the salt storage shed on Sunset Drive. Hours of operation will be dawn to dusk, 7 days a week. A permit is required for Londonderry Township residents. The permit is available at the Township office at 783 S. Geysers Church Road, Monday through Friday, 8:30 a.m. to 5:00 p.m. There is no fee for the permit.

THE FOLLOWING ITEMS WILL BE ACCEPTED:

- Grass
- Yard waste
- Leaves

THE FOLLOWING ITEMS WILL NOT BE ACCEPTED:

- Paper
- Plastic
- Lumber
- Glass
- Metal
- Limbs
- Ashes
- Trash

Tree limbs can be taken to Zeager Mulch at 4000 E. Harrisburg Pike in Middletown. For more information on what items Zeagers Mulch will accept, give them a call at 717-944-8481.

Watch the Township newsletter, website and Facebook for any changes.

Dauphin County Recycling Center

1625 S. Cameron Street • Harrisburg • 717-982-6772
Hours: Monday-Friday 8:30–4:30 • Saturday 9:00–2:00

Drop off location for unwanted or obsolete electronics, appliances and much more including:

Car and boat batteries • Lithium, rechargeable and regular batteries • Thermostats containing mercury • Empty propane canisters • Fire extinguishers • Light bulbs (including compact fluorescent bulbs) • (long fluorescent tubes – contact Dauphin Electric) • Refrigerators/freezers/air conditioners (\$20 fee for freon removal) • Dehumidifiers • TV's • Microwaves • Computers (must be intact) • Hardcover books - if the local library won't take them, cut covers off first

Large items — if you get it there, they'll unload it! To dispose of hazardous waste such as oil drums, insecticides, spray cans, poisons, please call 800-449-7587.

Conewago Township Recycling Center

3279 Old Hershey Road • Hershey, PA • 717-534-8556

HOUSEHOLD GOODS –

Dauphin County has designated Conewago Township as the local recycling center. No permit is required and there is no charge to residents.

Items that may be brought to the Recycling Center:
Magazines/office paper/junk mail/phone book • Corrugated cardboard and boxboard • Newspapers and inserts • Aluminum and tin cans • Plastic bottles with recycling symbols on them

Glass bottles and jars are no longer accepted.

APPLIANCES, FURNITURE, SCRAP METAL –

Do you need to dispose of items such as appliances, furniture or scrap metal? One option is to contact your trash hauler and inquire what items they will pick up. Another option is to contact local scrap metal yards. Some scrap yards will pay you for metals such as aluminum, copper, brass, etc.

CSR Scrap Metal (717) 233-7927
Dauphin County Recycling Center (717) 982-6772
DEP Waste Management (717) 705-4918
Royalton Recycling (717) 944-4823

Boy Scouts

The Boy Scouts of America is one of the world's largest and most prominent values-based youth development organization. The program provides young people with skills that build character, promote citizenship and develop personal fitness.

Boys between the ages of 6 and 10 are eligible to become members of the Cub Scouts. For more information regarding the Cub Scouts, please contact Joan Nissley at 717-395-7874

Boys that have completed the 5th grade and are a least 10 years old, or boys that have earned the Arrow of Light and are at least 10 years old; and boys who are 11 years old but not yet 18 years old, are eligible to become Boy Scouts. Meetings are held most Tuesday nights at the Londonderry Scouting Complex from 6:30 p.m. to 8:00 p.m.

Cub Scouts (Ages 7–10)
Boy Scouts (Ages 11–17)

To become a member of the Boy Scouts, please contact Kevin Little at 717-944-1957.

For more information about the Boy Scouts of America please visit their website at

www.scouting.org

Girl Scouts

Girl Scouts of the USA is the world's preeminent organization dedicated solely to girls—all girls—where, in an accepting and nurturing environment, girls build character and skills for success in the real world. In partnership with committed adult volunteers, girls develop qualities that will serve them all their lives, like leadership, strong values, social conscience, and conviction about their own potential and self-worth.

Girl Scouting builds girls of courage, confidence, and character, who make the world a better place.

Daisy Girl Scouts
(Ages 5–6)
Brownie Girl Scouts
(Ages 6–8)
Junior Girl Scouts
(Ages 8–11)
Girl Scouts (Ages 11–17)

Information on Girl Scouts can be found at www.girlscouts.org or on our website at www.londonderrypa.org for more information regarding the local Girl Scout Troops.

V.I.P. Senior Van Service

The V.I.P. is a van service for seniors (65 + over) who are residents of Londonderry Township.

The van provides transportation to and from doctor and hospital appointments as a priority. If available, other locations within Dauphin County for necessities (i.e. grocery store, bank) may be scheduled.

The van is not handicapped accessible so residents must be able to get in and out of the van without assistance.

There is no charge for this service, however, donations are strongly suggested and appreciated to help with the costs for gas and upkeep of the van.

For more information, please call V.I.P. Van Service at 717-944-1777 between 10:00 a.m. – Noon, Monday – Friday.

The van doesn't operate on weekends.

Recreation

Sunset Park Pavilion Rental

Sunset Park is the perfect location to host a picnic, reunion or golf outing.

There are two small pavilions, each accommodating 50 guests. The large pavilion accommodates 150 guests. Each pavilion is equipped with lights, electric and charcoal grills. Amenities include ball fields, horseshoe pits, bocce ball courts, a basketball court, sandpit volleyball court, and a small nature trail. For the little ones there are two small playgrounds and one large playground.

Sunset Park is located adjacent from Sunset Golf Course making it convenient to play a round of golf and meet in the park afterward for a cookout with friends and family. Or if you don't feel like grilling, head

up to Sunset Bar & Grill "Your Friendly Backyard Hangout", where you can relax on the deck, enjoy the great food, cold drinks and a spectacular river view.

The pavilions are available for rent and can be reserved online at www.londonderrypa.org.

Just click on the Parks and Recreation tab and follow the links to reserve a pavilion.

Londonderry Horseshoe Pitchers Association

The Londonderry Horseshoe Pitchers Association pitches on Mondays at 6:30 p.m. at Sunset Park, six games per night, May through August. New members of all ages are always welcome.

If you would like information for the 2020 season or are interested in joining, please call Rich Sill at 944-2007

Londonderry Bocce League

Bocce may be for you! It provides an opportunity to meet new people, get light exercise, and have fun.

Regular and substitute players (men and women) are currently being accepted for the 2020 Londonderry Summer Bocce League. Games are played on a Monday and Tuesday Morning at 9:00 a.m. in May and June and 8:00 a.m. in July and August; also, on a Tuesday evening at 6:00 p.m. The season begins May 11 and ends on August 18, followed by a picnic on August 25. You can sign up as a team (4 people) or as an individual. No experience is necessary; bocce is an easy game to learn. No fee is charged. For more information call 944-6518.

Two Ways to Help the Ronald McDonald House

1 CHANGE LIVES, ONE PAIR AT A TIME

The Londonderry Lionettes are collecting used eyeglasses for people in need and for people in low and middle-income communities. The eyeglasses are sent to a local Lions Club who forward them to the Lions Eyeglass Recycling Center. There the eyeglasses are cleaned, sorted by prescription strength, packaged and distributed to those in need.

Collection boxes for eyeglasses have been placed at Karns, Londonderry Elementary School, Evangelical U.M. Church, St. Peters Lutheran Church, Presbyterian Church, Geyers U.M. Church, Wesley U.M. Church, and New Beginnings Church. Please place all eyeglasses in a Ziploc bag for protection during transport. **NOTE: The Lions Club only want the eyeglasses. No eyeglass cases, sunglasses, or loose lenses. For more information on this project, please call Anita Housman at 756-7467 or Louise Morgan at 944-6518.**

2 HELP BY COLLECTING METAL TABS FROM BEVERAGE CANS & CANNED GOODS

The metal tabs, from beverage cans and canned goods, are collected and sent to the Ronald McDonald House where they are sold to a local recycling company. The proceeds are used for the daily operating expenses at the Ronald McDonald House. They average \$1,000 per month. Collection boxes for the can tabs have been placed at the Londonderry Township Building, and TLC-Quilting, 2900 E. Harrisburg Pike.

Other sites are being sought as well. If you would like to have a collection box in your workplace, church or business to help support either of these programs, please contact Anita Housman or Louise Morgan at the aforementioned numbers.

Community Outreach

Stray & Feral/Wild Animals, Dog Licenses

A RESOURCE FOR CARETAKERS AND FRIENDS OF STRAY AND FERAL/WILD CATS

Helping Hands for Animals

Trap Neuter Return

Helping Hands for Animals has openings at our spay/neuter facility but you will need to call for an appointment. This clinic is designed for feral/wild, free roaming and community cats as well as unconfined pet cats. All cats will be spayed or neutered, given rabies and FVRCP (distemper) vaccinations, treated with Revolution (flea, roundworm/ hookworm and ear mite treatment) and ear tipped for identification as fixed animals. *The cost is \$30.00 and AN APPOINTMENT IS NECESSARY.*

Appointments can be made by calling 717-687-7297. Helping Hands currently holds clinics EVERY Tuesday and Wednesday. Please note that due to limited resources, all cats must be able to be trapped and transported to our facility which is located on New Danville Pike in Lancaster. www.helpinghandsforanimals.org.

LOST DOGS:

PAlostDogs.com allows residents to post a photo and description of their lost dog. Almost 6,000 dogs in PA have been reunited through this site.

A lost dog is more likely to be found if licensed. The Treasurer's office records all sales and will contact the owner when a lost dog is found!

Lifetime licenses are available at the Treasurer's Office at DauphinCounty.org.

TOWNSHIP VOUCHER PROGRAM CONTINUES WITH THE HUMANE SOCIETY OF HARRISBURG

7790 Grayson Road, Harrisburg • (717) 564-3320 • SPAYING/NEUTERING BY APPOINTMENT ONLY

SOME IMPORTANT FACTS TO REMEMBER:

Before bringing the animals to the Humane Society, residents must first obtain a trap and release voucher OR an animal surrender form from the Township office between the hours of 8:30 a.m. to 5:00 p.m., Monday through Friday. Proof of residency is required. Animals are not permitted inside the Township office.

Trap and Release Vouchers—The trap and release vouchers are for feral (wild) cats only. The animal must be placed in a crate prior to obtaining a voucher from the Township office. One voucher per animal is given. The resident must make an appointment with the Humane Society to have the animal spayed or neutered. The animals will then be returned to the resident so that the resident can release the animal in the original location where it was found.

Animal Surrender Forms—The animal surrender form is for stray cats and dogs. Residents can obtain an animal surrender form at the Township office once the animal has been placed in a crate. One form per animal is given. No appointment is needed to surrender stray animals at the Humane Society.

Dog Licenses—applications are NOT available at the Township office. Residents may purchase a license online at **PADogLicense.com**. A metal tag will be mailed within a few days. Dogs over three months must be licensed by state law. If not, fines are up to \$300 for each violation. Fees collected are used to underwrite costs of monitoring PA kennels and puppy mills as well as other dog welfare initiatives not funded by tax dollars. **Dog tags run with the calendar year and must be renewed annually!**

Londonderry Lionettes Happenings

The Londonderry Lionettes continue to "care and share" in our community, surrounding communities, statewide, and internationally with the following projects, and others as needed for 2020:

- Hosting a birthday party and a bingo party (see note below).
- Providing healthy snack bags for Meals on Wheels clients and adopted grandmothers in spring and fall.
- Donation of gloves for the Christmas baskets at Londonderry Elementary School.
- Provide clothing for the nurse at Londonderry Elementary School to be used for children as needed.
- Collecting used eyeglasses (see separate article) for the Pennsylvania Lions Club and soda tabs for Ronald McDonald House. To date, the Lionettes have collected 1,713 pair of eyeglasses since the project began six years ago.
- Giving Christmas presents to our adopted Grandmothers at Frey Village and sending cards to them for major holidays and birthdays.

The Lionettes meet the first Wednesday of each month except for June, July, August and December at 7:00 p.m. at Londonderry Elementary School. An annual picnic or outing is scheduled for June, and a Christmas party in December. Special activities for March and April are held on site at Frey Village and Interfaith Apartments.

Monthly activities/speakers for the Lionettes for 2020 are:

- February 5 - Making valentines for Meals on Wheels clients, Alzheimer's patients at Frey Village and adopted grandmothers.
- March 18 - Hosting a March birthday party for residents at Frey Village.
- April 16 - Hosting a bingo party for residents at Interfaith Apartments.
- May 6 - Walt and Margie Cook presenting "First Five Ladies".
- September 2 - Dr. Edward Swartz presenting "Indian Echo Caverns".
- October 7 - Sharon Agresta-Siekerman presenting "The Beauty of Bats".
- November 4 - David Manuel presenting "A Call from Santa".

All ladies in Londonderry Township are invited to join the Lionettes and help make a difference in our community. For more information call 944-6518.

Meals on Wheels

Do you know anyone over age 60 who is home bound because of physical, mental, or emotional disability and is without a caregiver who is able to provide meals on a regular basis? If so, the Dauphin County Area Agency on Aging can help by providing a well-balanced hot meal for delivery to residents of Dauphin County. Meal recipients are assessed by the Agency's Care Management Unit to determine their eligibility. Meals are delivered five days a week by volunteers who observe the well-being of the home bound individual receiving the meal. The volunteers are recruited by our local "Meals-on-Wheels" organization. Recipients are encouraged to make a voluntary contribution toward the cost of the meals according to their financial ability. To request home delivered meals, please call the Dauphin County Area Agency on Aging at 717-780-6130.

Volunteers are also needed to deliver meals for Londonderry Township from Monday thru Friday. Some volunteers deliver five times a month, some twice a month and some one day a month. It typically takes 1 ½ hours to complete the route. If interested in helping, please contact Louise Morgan at 944-6518.

To request home delivered meals, please call the Dauphin County Area Agency on Aging at 717-780-6130.

REMINDER
ON-LOT SEWAGE DISPOSAL SYSTEM INSPECTION PROGRAM (OLSDDS)
ON-LOT MANAGEMENT DISTRICT B
JUNE 1, 2020 — JUNE 30, 2021

Londonderry Township has been mandated by the Pennsylvania Department of Environmental Protection to establish an On-Lot Sewage Disposal System Inspection Program (OLSDDS). Every OLSDDS in the Township is required to be inspected and every treatment tank or cesspool associated with every OLSDDS shall be pumped and inspected at a minimum regular interval of once every four (4) years by a certified pumper/hauler.

Property owners within On-Lot Management District B are once again required to have their on-lot sewage disposal systems pumped and inspected by a certified pumper/hauler

BEGINNING on or after June 1, 2020 and completed BEFORE June 30, 2021

For more information, visit our website at www.londonderrypa.org or call the Township office at (717) 944-1803.
